Address: No.2512-2 No.25 Haigang Road Zhifu District
Yantai City Shandong Province China
Zip 264001

All for Your Easy Daily Life& Business

Smart home creates new life

We are able to develop many branded products and gain competitive advantages in our respective markets

Smart WiFi/Zigbee/Bluetooth Socket

Ordinary household appliances (water heaters, air conditioners, coffee makers, heaters, desk lamps, etc.) are plugged into the smart socket and become remotely controlled by smart phone APP, timer countdown control, power detection, one-key smart control, or via Alexa/google/day Third-party AI intelligent voice control such as cat elves speakers; make life more convenient and smarter!

Multiple plug and socket options such as EFU/EU/US/UK/CA/BR Plug

Socket parameters:

Input and output: AC85-240V 60Hz/50Hz

Power: 10A/16A/20A

Communication: WiFi 2.4G / 433MHz / zigbee / Bluetooth

RF433

Smart WiFi/Zigbee/Bluetooth Socket

Smart WiFi/Zigbee/Bluetooth Controller

The controller is connected to the wifi/gateway at home, and can use the mobile APP (Tuya Smart) to remotely control the electrical equipment, or use the third-party AI smart voice such as Tmall Genie/Xiaodu speakers to control the electrical equipment; make life more convenient and smarter !

Controller + free stick wireless switch: (The controller is connected in series to the incoming line of the light (electrical equipment), and can be remotely controlled with a wireless switch or remote control, without mutual interference and no directionality.

Controller parameters:

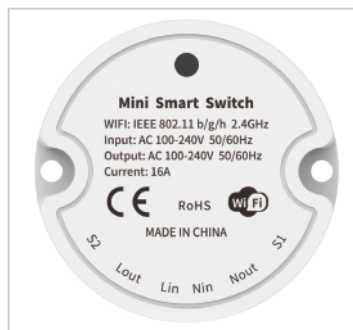

Input and Output: AC85-240V 60Hz/50Hz Power: 10A / 16A Frequency: WiFi 2.4G / 433MHz / zigbee / bluetooth

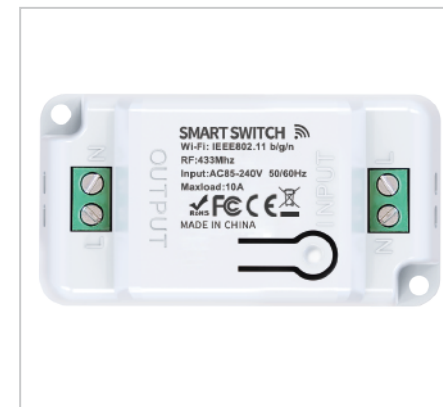

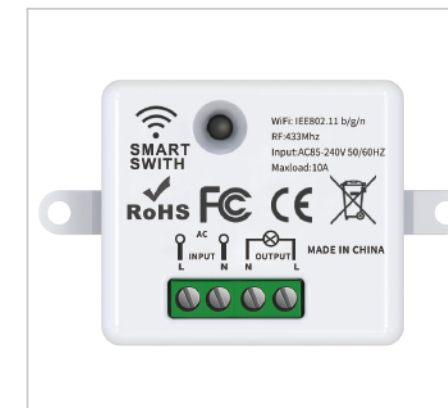

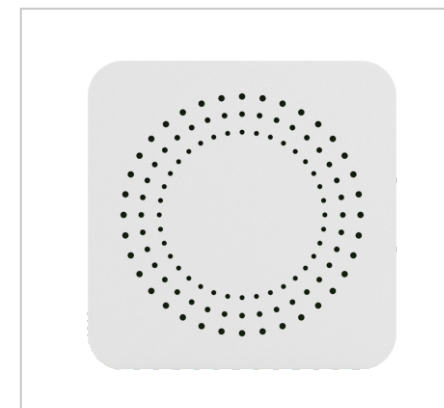

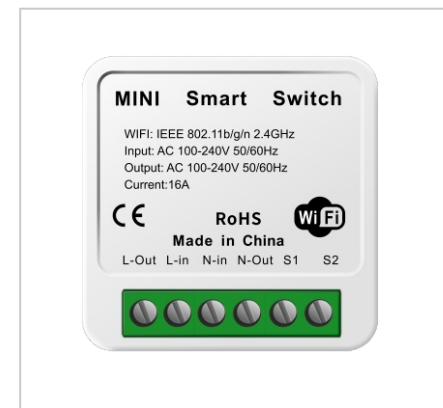

4 kinds of control mode
Especially suitable for the elderly, nursing mothers, Pregnant women, disabled people, children, etc.

Smart WiFi/Zigbee/Bluetooth Controller

Wall Smart Switch

The switch adopts a tempered glass panel, touch control the light switch at home, connect to the home's zero fire wire and connect to the home WIFI, you can use the mobile phone APP (Tuya Smart) to remotely control the home lights, you can time, countdown, set different scene modes and intelligent control , You can also use the Tmall Genie/Alexa/Google AI speaker to control the light switch by voice; make the light switch smarter.

Supported third party control

Wall Smart Switch

Smart Remote Switch

The switch realizes one-key intelligent control of multiple products and multiple scenarios by connecting to the gateway; making life more convenient and smarter!

Product parameters

Working voltage: DC3.0 V

Communication: Zigbee 3.0

Standby power consumption: <0.5uA Transmitting power: <10mW

Wireless Remote Switch

Freely sticking switches: free of wiring, placed anywhere, arbitrarily matched, no strong electricity, with different control terminals to achieve wireless control of multiple application scenarios; no interference between each other, no directionality.

Product parameters:

Working voltage: DC3.0 V

Frequency: 433MHz

Standby power consumption: <0.5uA

Transmitting power: <10mW

Self-powered Remote Control Switch

Self-powered remote control switch: The switch is free of wiring, does not require batteries, presses the micro-energy collection technology, can be placed anywhere, arbitrarily matched, with different control terminals to achieve wireless control of multiple application scenarios; there will be no interference between each other and no directionality.

Product parameter:

Working voltage: press to generate electricity, without battery

Standby power consumption: <0 uA

Frequency: 433MHz

Transmitting power: <10 mW

Smart Door Switch

Smart access control switch: connect to the home wifi/gateway, you can use the mobile phone APP (Tuya Smart) to remotely control the door, or use the third-party AI smart voice control such as Tmall Genie/Xiaodu speakers to control the door; make life more convenient and smarter!

Product parameters:

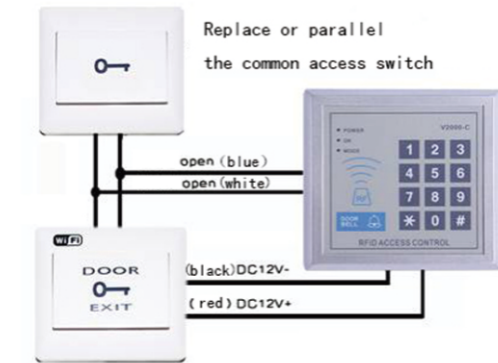

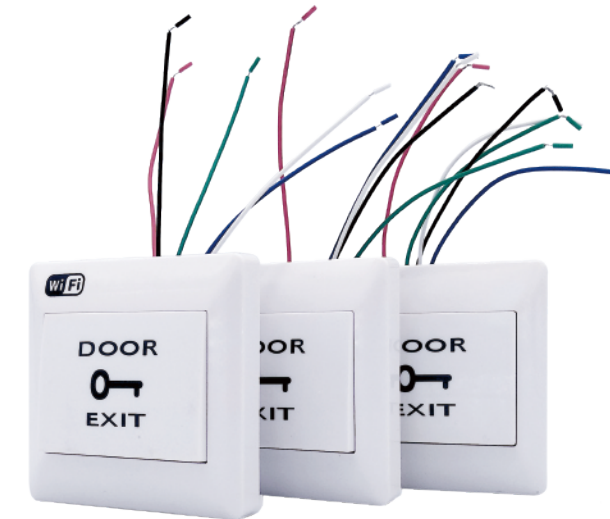

Product name: 86 type intelligent switch

Structure: fire-resistant fuel mixed resin

Product life: 100,000 times of aging test

Working temperature: -10Y+55Y (14-131F)

Power supply: DC 12V

Touch Wall Switch

Touch wall switch: adopts tempered glass panel, high-end atmosphere, easy to clean and easy to install;

Product parameters:

Working voltage: Main switch AC 220V/50H Frequency: 433MHZ Total power: <200W

Remote control lamp holder

The lamp holder has a built-in receiver, a single E27 screw port, no wiring, it can be used with a wireless switch, screw on the lamp holder and you can wireless remote control! One lamp head can be matched with multiple wireless switches at the same time, so that one lamp can be controlled on and off in multiple places

Product parameters:

Input and output: AC85-240 V 60Hz/50Hz

Power: 10A

Frequency: 433MHZ

Interface type: E27

Self-powered wireless doorbell

The battery-free wireless doorbell drives wireless signals by pressing to generate electricity. It does not require batteries, no wiring, and simple installation. It is not only an application doorbell, but also can be used in various fields such as switches and pagers.

Receiver parameters

Receiver :US/EU/UK plug
Working voltage: AC 100V-250V 50/60Hz
Working frequency: 433.92MHz
Standby power consumption: 0.25W
Music: 38 songs
Volume: 4 gears (including mute)
Transmission distance: ≤150 meters
(without obstacles in open areas)
Working temperature: -10°C~+45°C

Transmitter parameters

The transmitter does not require batteries
press to generate electricity
Working frequency: 433.92MHz
Working temperature: -20°C~+65°C
Waterproof rating: IP44

Battery wireless doorbell

The receiver of the doorbell corresponds to multiple buttons and can set different ringtones. The receiving distance can reach 300 meters (open and unobstructed distance)

Receiver parameters

Receiver :US/EU/UK plug
Working voltage: AC 100V-250V 50/60Hz
Working frequency: 433.92MHz
Standby power consumption: 0.25W
Music: 38 songs
Volume: 3 gears
Working temperature: -10°C~+45°C

Transmitter parameters A

Working voltage: DC 12V 23A
Battery: DC 12V 23A
Working frequency: 433.92MHz
Transmitting power: <10mW

Transmitter parameters B

Working voltage: DC 3V
Battery: CR2032 battery
Working frequency: 433.92MHz
Transmitting power: <10mW

WiFi wireless doorbell

Wireless transmission, no wiring, simple installation, it is not only an application doorbell, it can be used in various fields such as switches and pagers. You can use the mobile phone APP (Tuya Smart) to remotely control the doorbell by connecting to the WIFI at home.

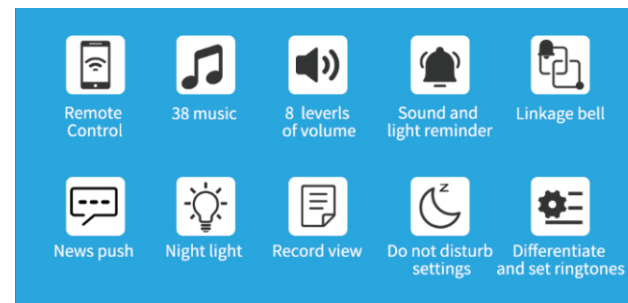

Receiver parameters

Receiver :US/EU/UK plug
Working voltage: AC 220V 50HZ / AC110V 60Hz
Working frequency: 433.92MHz
Transmission distance: ≤150 meters (open area)
Music: 38 songs
Volume: 4 levels (including mute)
Controllable volume: 25-85 dB
Working temperature: -10°C~+45°C
Size: 101X67X 50~70mm

Transmitter parameters

The transmitter does not require batteries
press to generate electricity
Working frequency: 433.92MHz
Working temperature: -20°C~+65°C
Waterproof rating: IP44

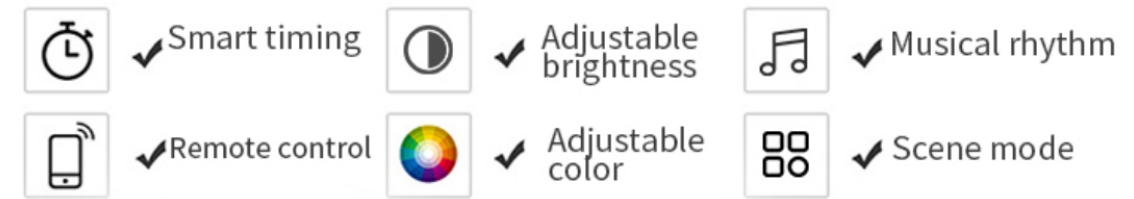

Video doorbell

Video doorbell

WiFi Smart Lamp

E27

E14

GU10

PIR Door Sensor

Reminder: The use of this product requires configuration of Zigbee gateway

Product parameter

Working voltage: DC 3V (CR2032 battery)
Effective magnetron distance: <1cm
Wireless standard: zigbee 3.0

PIR Sensor

Product parameter

Working voltage: DC 3V (CR2450 battery)
Detection angle: <150°
Measuring distance: 5-7 meters
Standby current: ≤5 uA
Working current: ≤80 mA
Working temperature: -10°C~ 55°C
Wireless standard: zigbee 3.0

WiFi Series Thermostat

Power Supply:95~240V AC
Current Load:5A or 16A
Sensor:NTC
Accuracy:+0.5°C or+1°F
Set Temp. Range:5~35°C
Display Temp.Range:5~99°C
Ambient Temp:0~45°C

Ambient Humidity:5~95%RH
Storage Temp.: -5~45°C
Power Consumption:<1.5W
Timing Error:<1%
Shell Material:PC +ABS
Protection Class:IP 20
Buttons:touch screen buttons

Power Supply: 95~240VAC, 50~60HZ
Current Load: 5A (water heating/water boiler/gasboiler),16A (electric heating)
Sensor: NTC
Accuracy: +0.5°C or +1F
Set Temp.Range: 5~35°C
Display Temp.Range: 5~ 99°C
Ambient Temp.: 0~ 45°C
Storage Temp.: -5~45°C
Power Consumption: <1.5W
Timing Error: < 1%
Protection Class: IP 20
Ambient Humidity: 5~95 % RH (Non Condensing)
Buttons: Capacitive Touch Buttons

WiFi Controlador remoto IR

Product parameter

App: tuya/Smart Life APP
 Power : DC 5V-1A
 Standby Power dissipation : $\leq 0.5W$
 IR distance : 10m (no wall)
 IR frequency : 38K
 IR direction : Multi-azimuth
 WIFI : 2.4GHz Wi-Fi
 Working TMP : 0~50°C
 Working HUM : $\leq 85\%$ RH
 SIZE : 67x67x19.5mm

WiFi USB IR+RF Controller

Product parameter

Material: ABS
 Power Supply: USB 5V/1A
 LED Indicator: Blue
 Infrared Frequency: 38KHz
 Infrared Range: 10 Meters
 Radio Frequency: 433.92MHz
 Wi-Fi Frequency: 2.4GHz IEEE 802.11 b/g/n
 Operating Temperature: -10-55°C
 Item Size: 87.8 * 30.25 * 12.29mm/ 3.5 * 1.2 * 0.5in

Customizable R & D product category

01 Wireless remote control

Wireless control products can be customized and developed according to customer requirements

1. Wireless remote control switch, wireless receiving controller, wireless remote controller, wireless doorbell, wireless remote control socket, wireless door magnetism, PIR, wireless body sensor, etc;
2. Self generating remote control switch, self generating receiving controller, self generating remote controller, self generating doorbell, self generating remote control socket, etc;

02 Smart home

The smart home products can be customized and developed according to customer needs
 1. Intelligent WiFi on-off device, intelligent WiFi socket, intelligent WiFi switch, intelligent WiFi gateway, intelligent WiFi doorbell, etc;
 2. New two line central air conditioner temperature controller;
 3.4g low power monitoring

03 Beauty and fitness

We can develop beauty and fitness products according to customers' needs
 Fitness abdominal muscle patch, beauty mask, oxygen injection instrument, chest massager, ultrasonic cleanser, ion introduction vibration inductor;

Main services

Research and Development

Shenzhen Wenhui Technology Development Co., Ltd. has many high-quality products independently researched and developed. Its R & D concept is always close to public customers and provides new and practical products for e-commerce enterprises.

Production

Professional production of high-quality products, with a sound warehouse management system, the company adheres to the "quality first, customer first" policy, has a full range of marketing and multi-level advantages of its own resources, the full inspection of products at all levels to control, whether it is the appearance or function of all through the full inspection before shipment!

Sale

Multiple sales platform app, retail and wholesale as a whole, professional operation team and sales team, in the product after-sales service, the company has always been to let customers rest assured, satisfaction concept, pay attention to integrity and communication, to provide high-quality after-sales service!

HELP YOU MOVE
TOWARDS SMART LIFE

EMPOWER YOUR
SMART BUSINESS
